Subject: RE: SDWA language translated into PFs

Tala,

I'll take a look. Regarding our discussion tomorrow, Is it critical that we have Jeff and Tanya present or would it be helpful to meet with you even if they are unavailable? Due to Globalchem we are having a scheduling crunch...

Subject: SDWA language translated into PFs
Importance: High

As per Charlotte/Nancy request of yesterday, I have taken a crack at 'translating' the OW/SDWA slides into language for PFs. I assume we should discuss tomorrow at PF meeting...will try to have the OLEM stuff in similar order by then too. This will clearly begin a round of discussion/edits with OGC...they had also "promised" to have their thoughts together by yesterday/today...have you seen that yet. It would be helpful (in my opinion) if they can start with this language and bolster it with legal/rule-based language...rather than revisit the whole issue from the start, e.g., at this juncture, can we agree we are talking about pathways of exposure, not COUs?

I know you all might be at Global Chem (see you there at about 11?), so have also put text in body of email below:
